

How to Complete the SumDog Homework Challenge

1. Open your web browser and go to www.sumdog.com (a link is also available on the class website).
2. Log in to your child's account (username is first initial and last name, such as "vkiejzo", password is "meslab", school code is "meslab").
3. Find the green box on the left part of the screen. It should display the name of the activity (such as "1/25-1/29 HOMEWORK CHALLENGE"). If it does not, click the green box and select the homework challenge.

4. Your child may play any game but must answer 50 questions correctly to complete the assignment. Progress towards completion is indicated in the blue box on the left part of the screen.
